## 'Skinner's Dress Suit'

WITH

Reginald Denny and Laura La Plante

Reginald Denny is the one man who can make you laugh every time he starts without the aid of trick walks and cussard pies. There's no doubt about it—Denny was born with a twinkle in his heart and a contagious smile on his face. And when he gets a story like Henry Irving Dodge's famous Saturday Evening Post series—"Skinner's Dress Suit"—you can shuffle right down to wherever he is showing—sure for once that you are going to laugh—whole hearted, sincere, utterly abandoned chuckling laughter that comes only from good, wholesome spontaneous comedy. Oh, yes, indeed! He's the one real, honest-to-goodness happiness maker—

Coming Next Week:

"THE NIGHT OF LOVE."

Don't forget the Big Free Dance at Kramer's Chateau on Friday Night, plenty of time to take in the show also.

## Champion Sports Friday, July 1

Preparations for the last of July program have made rapid progress during the week, and the committees in charge feel they are quite justified in claiming that Champion will have the biggest day in her history for the Diamond Jubilee Celebration.

The league game between Staveland and the Calgary Hustlers, will be the stellar attraction available in the province for this day. These teams permit the assurance that nothing better in this line of sport will be seen anywhere. In addition Champion and Carmangy teams will meet, and as both teams will be strengthened for the big occasion spectators may count on two real games of baseball.

In the morning the pageant of school children will open the day's program and no effort is being spared to make this a memorable event. Each participant will be presented with a medal and flag for the occasion. Bucking contests and horse races are being arranged on a scale in keeping with the rest of the programme, insuring a full day for everyone.

While arrangements for the music are not quite complete here likely be two bands while the Staveland Orchestra will play for the dance in the evening.

Complete programmes will be available in a few days and posters will be issued at the earliest possible moment. Don't make any arrangements for the day until complete information as to the Champion programme is in your hands. You may rest assured there will be nothing better in the province.

Considerable progress has been made in the 1927 elevator program of the Alberta Wheat Pool. As a result of negotiations with elevator companies forty-one elevators have been selected this year. In addition thirty-seven have been contracted for where there are no existing facilities or where it is apparent the present owners have decided definitely not to dispose of their properties to the Pool. No promises of elevators on condition of a big sign-up of second series contracts are been made. Elevators are being built or acquired at points where deliveries have been heavy during the past three years. The heaviest contribution to elevator funds are obviously from those points where the most wheat has been marketed. The machinery for the campaign to put over the sign-up of the second series of wheat pool contracts has been put in motion. The drive will start on Monday, June 20th, and it is planned to conduct a thorough canvass of the province.

Messrs. H. E. Smith and L. M. Groves took in the horse roundup south of Brooks on Tuesday, spending the evening at Lake Newell where they caught some sixty fish before returning home the same evening.

As far as can be ascertained the acreage in crop in this district is fully up to the average. Of course, less rain during seeding would have permitted seeding to be finished at an earlier date, but conditions as they exist today could not have been bettered by any different weather arrangement.

## Local and General

The prevailing hot weather was broken by a thunder shower on Wednesday afternoon.

Miss Agnes Patterson, who was taken to the hospital in Calgary last week is now doing as well as could be expected, but it will be some time before she will be able to return home.

Winston H. Cooper, son of H. Cooper, was on a visit to his father during the week. He has just finished taking his first-class normal training and will teach after the holidays.

Word received from Mr. and Mrs. A. McCullough from Liverpool indicates they had a splendid trip so far and are thoroughly enjoying themselves with the added attraction of four meals a day.

A. W. Jopling had made such splendid progress that Mrs. Jopling and L. W. Jopling returned home at the end of the week. It is anticipated Mr. Jopling will be convalescent in a few days.

Mr. and Mrs. Dawson, of Edmonton, who had been the guests of Mr. and Mrs. J. N. Deaubier for some days, left for home on Tuesday. Mrs. Dawson assisted with the music at the Sunday evening service, rendering two solos.

John F. Miller, Eye Sight Specialist of 401 Underwood Block, Calgary, will be at hotel in Champion on Friday, June 17th, for the purpose of correcting yours and your children's eyes. Do not miss this opportunity.

Carmangy baseball team defeated Vulean at Carmangy on Wednesday evening by a score of 5-4. R. F. Nelson was umpire, and W. A. McIntyre played with Vulean, making the outstanding hit of the evening. A number from Champion took in the game.

The W. I. will meet at the home of Mrs. (Ber.) Hunt next Tuesday instead of at Mrs. P. M. Patterson's as previously announced. Roll Call—"Indian Names and Their Meaning." Report of delegates to the Provincial Convention and an address by Rev. Mr. Hunt will be features of the meeting. Refreshment Convenor, Mrs. P. M. Patterson.

Theodore Holm, son of P. Holm, met with a serious accident on Wednesday morning when the horse he was riding stepped in a badger hole, throwing the rider and falling on him. A broken shoulder bone was the result. In the absence of Dr. Freeze the patient was driven to Carmangy by J. M. Moffatt, where the bone was set and Theodore was returned to his home.

G. P. Smith brought a sample of fall rye into the Chronicle office on Wednesday which gave a better conception of the wonderful growth which has occurred recently than anything seen here. The rye, which was beginning to head out, measured 2 feet, 6 inches, and was the most remarkable illustration of the extent to which one plant can stool we have ever seen.

D. W. Harper, F. Clever, E. Latiff and Sam Jopling drove to Claresholm on Monday to see a league game between Claresholm and Staveland. The trip was eminently satisfactory as the game went thirteen innings before being concluded and then more through darkness than anything else. E. Siler was in the box for Staveland and pitched a splendid game. The final score was Claresholm 5, Staveland 4.

## Announcing Our Second Annual Special Order Week

June 6 to 11th

Semi-Ready Ltd.

Canada's leading Men's Tailoring Establishment have just advised us that during the week of June 6th to 11th, several of the cloths in their Custom made-to-measure Samples will be greatly reduced.

The reductions are only to the morning of the 13th, and after that they revert to the original prices.

The range of cloths and patterns are particularly attractive and you can easily select one that will suit your fancy. This we can have made to your measure in a style of your own choosing in a few days' time.

The reductions on these suits are as follows:  
Regular \$25, Special Order Price **\$19.00**  
Regular \$30, " " **27.50**  
Regular \$35, " " **31.50**  
Regular \$50, " " **43.00**

Do try and arrange a visit to this store some time before June 11th. We assure you that you will not be disappointed in the values we can offer you. You need not a new suit for the Champion Celebration, July 1st.

Shopping Advantages in Our Grocery Department.

CLASSIC CLEANSER, per tin ..... \$ .10

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50c cents for first insertion 25 cents for each subsequent insertion.

Commercial rates on application.

THURSDAY, JUNE 6, 1927

## NOTES AND COMMENT.

Commencing at the week end the weather, which had been cool for the greater part, changed suddenly to exceedingly warm temperatures for the season and growth, in consequence, has been extremely rapid, the wheat fields presenting a splendid appearance. The whole country, in fact, is of a decidedly green color, the grass being the best in years at this time. While in some instances seedling operations were continued into June, the greater part of the crop was in good time and present prospects could not be exceeded.

The committees appointed to handle the sports scheduled for July 1st have been busy and it is anticipated the attractions which will be offered will be of an exceptionally high character despite the large number of adjacent points that are collaborating on this date this year. A wide interest in this year's celebration at Champion is developing and visitors may rely on one of the best first of July programmes ever attempted in this vicinity.

The sound of hammers, which has been constant here this spring, with the resultant new structures, has been decidedly pleasing as compared to some previous years. Champion has made a long step forward this year, and with other promised improvements a real season's progress seems to be assured.

Over a period of nine years various pastures for pigs have been tried out at the Dominion Experimental station at Rosthern, both in comparison with one another and with no pasture. In dry years, such as 1924, there was so little growth that no effects could be seen from the use of pastures but in seasons where there is fair growth there are both greater gains and more economical gains when pigs are on pasture with meal than when on meal alone. Corn pasture is less valuable than oats or barley, and rape gives best results in amount of gains and economy of gains. Rape has another advantage. Pigs fed in dry lot or on grain pasture or corn pasture showed greater gains when fed a supplementary mineral mixture but there was little difference between those fed mineral and those without mineral on rape pasture.

## Combine Statistics From Swift Current

The Dominion experimental station at Swift Current has made a study of the combine question and some of the conclusions arrived at are interesting. When oats are in consideration, although, Alberta owned combines seemed to have entered into the statistics, the figures are not applicable here, but in many other respects the information given is undoubtedly valuable. In part, the following will be found to apply to local conditions:

"Baking and milling tests made of combine harvested and binder harvested wheat showed practically no difference. In only one year did the binder harvested wheat show a better loaf than the other, and in 1924 the combine wheat showed a much better loaf, so that honors are about even."

"Questionnaires were sent out in 1925 to the 174 combine owners in the three prairie provinces. Of this number two are in Manitoba, 20 in Alberta and 146 in Saskatchewan. Eighty-six replies were received stating that 28 machines were drawn by horses and 50 by tractors; 45 machines lost 18 days by reason of bad weather; 2 machines lost no time for weather; 21 machines lost 12 days waiting for repairs and 44 lost no time for repairs; 20 owners gave an average saving of 10.12 cents per bushel as compared to the binder and separator; one owner condemned the combine; 58 owners gave an estimated cost for wheat of 90c per acre (gas, oil and labor only); 33 kept no record of cost and 56 gave an average cost of 6 cents per bushel for wheat (gas, oil and labor only). 84 owners reported an average of 68.3 acres harvested by each machine, the individual areas ranged from 50 to 2,300 acres."

"The general conclusions arrived at at the station includes the necessity for complete preparation for combine harvesting when the season arrives, as no time must be lost. This means thorough overhauling and competent management by proven mechanics. The minimum average is set at 300 acres and the maximum at 800 to 1,000 for one machine."

## PUBLIC INSTITUTIONS

**Galt Hospital, Lethbridge**  
First-class Hospital Service at reasonable rates.

Private, Semi-Private, and Public Ward accommodation for surgical and medical cases.

IN THE FINE CAR FIELD THE TREND IS UNDOUBTEDLY TOWARD EIGHTS

## Growing in Favor Month After Month

Hupmobile Eight is strengthening its hold on public favor, month after month, because Hupmobile engineers have achieved even finer, more luxurious performance from the straight-eight principle.

You will experience a new zest in driving the latest series Hupmobile Eight—a resilient response that comes from its improved engine design; from the utter smoothness and balance of moving parts; from the silence and ease with which it does all you ask of it.

And today's Hupmobile Eight is not only more delightful in action—but most pleasing in appearance.

If you plan a motor car investment above \$2000, you especially owe it to yourself to inspect and ride in this most modern development among eights—the one car that is rapidly changing the whole trend of buying in the fine car field.

Fourteen Distinguished Body Types—priced from \$2715, f.o.b. Windsor. Custom Bodies designed and built by District.

## SAYS CONDITIONS IN WEST WERE NEVER BETTER

Calgary.—At the 56th annual general meeting of the Canadian General Farmers' Association, an optimistic note was struck by the chairman of the prairie division, T. N. Clayton, Winnipeg, in his review of conditions in the prairie provinces.

"General conditions in Western Canada were never more full of promise," he declared. "We are looking forward confidently and with justification to rapid development in the immediate future. Our primary industry, agriculture, has made tremendous strides in past three years and established itself on a firmer basis than ever before. Although weather conditions have been adverse this year and the average season will very likely show a decrease from last year, yet there is no reason why we cannot expect a bumper harvest."

"Probably no work of the association in the prairie provinces," said Mr. Clayton, "shows more encouraging results than the 'Produced in Canada' campaign. During the past year it has been adopted by the majority, generally, thus no longer leaves the statement that one might better buy imported goods and pay the Government duty, than to support the products of the province. This is attributable largely to the 'Produced in Canada' campaign of the association and in the second place to the fact that the campaign has been largely successful in the past year. This has aroused the public to the benefits that accrue through buying goods made in Canada, the way of increased employment and payrolls in their own lands."

In conclusion, Mr. Clayton said: "Most gratifying of all the developments on the prairies has been the change in the public attitude toward manufacturing. A fuller appreciation of the value of the payroll and the factory to the community has resulted the public mind and we find at all points a more active interest in new industries and a willingness to extend aid in having them established. All these promises abound in natural resources and opportunities which constitute prospects worthy of serious investigation. I would recommend that all Canadian manufacturers give due consideration to these possibilities for the profitable extension of their operations."

## Appeals For United Canada

Should Keep Spirit Agents Out Says Sir Henry Thornton

St. Thomas, Ont.—Sir Henry Thornton, president of the Canadian National Railways, in the course of an address before the business men of this city, suggested that agents of foreign countries should be kept clear of this country and permit Canadians to build a united, contented and prosperous Dominion. "This nation is the best of the race traditions of the Anglo-Saxons race, its jurisprudence embraces the fine principles of the common law, its fair play," Sir Henry said. "We are essentially a law-abiding people, and we want no element to come in and disturb that condition."

"Wherever there may think about other forms of government and about visionary schemes of society, it may conservatively be described as distinct and unique and if any common law wants to come here and ruin the slaves, we should banish them that we can do so the waking of these slaves ourselves."

Using St. Lawrence Route

Quebec.—A record number of tourist parties entering Canada through the port of Quebec compared with corresponding periods of recent years is reported here by the harbor authorities. In the course of the first five weeks of navigation more than 20,000 inland guests have disembarked. Immigration officials believe that over 20,000 will come in this year by the St. Lawrence route, as compared with 10,000 last year and \$5,000 in 1925.

Local Advertising Canadian Funds Ottawa.—The Canadian Historical Council has placed before the federal department of trade and commerce a proposal respecting participation in the release of advertising of Canadian food products in Great Britain.

Plan Big Elevator Vancouver, B.C.—The Province says: "Construction of a 1,200,000 bushel grain elevator to cost approximately \$2,000,000 will be started here shortly by the Alberta Wheat Pool, according to announcement from Calgary."

W. N. U. 1484

## For a Better Understanding

Appreciation of Needs of All Portions of Canada Required Says Beatty Vancouver.—In this year which we celebrate the Diamond Jubilee of the Confederation of Canada, our greatest contribution to the memory of those courageous Fathers of Confederation should be a greater understanding of the needs of those portions of the country in which we ourselves do not live. W. J. Beatty, 15, president and chairman of the Canadian Pacific Railway in Canada, addressed at a combined luncheon of the Canadian Club and the Vancouver Board of Trade.

"National characteristics are lacking of by greater resources, heretofore undeveloped," said Mr. Beatty. "The land is the tremendous area of agricultural lands producing the finest wheat in the world, and not less important vast areas of equally good arable land as yet untouched by the hand of man."

"It is estimated, I said," continued Mr. Beatty, "that only from one sixth to one eighth of the country's agricultural lands have as yet been cultivated. The second is its also an unlimited water power. I doubt if there is any other country in the world so rich in water power as we have."

"The third is its forest wealth, which already has enabled it to conduct lumbering operations. Our timber resources are estimated at 200,000,000,000 cubic feet of lumber and paper to the value of \$200,000,000."

"Then there are its mineral possibilities, the possibilities of which are very great enabling it to produce gold, silver, nickel, zinc, lead and copper to an aggregate value in 1925 of \$12,000,000."

## Reach Amicable Settlement

British Waives Claims for Detention of Shipping During War

Washington, D.C.—The British Government and the United States Government have agreed to settle the claims for detention of shipping during the war. The British Government has agreed to waive its claims for detention of shipping during the war. The United States Government has agreed to waive its claims for detention of shipping during the war.

In return the United States Government agrees to employ the same law as to pay claims of American citizens against the British which are settled in the British courts but which the United States Government has not.

British claims which the United States Government has recognized as just are understood to total approximately \$10,000,000, with others for which liability has not been conceded reaching a higher figure.

Many Settlers Reached Winnipeg

Winnipeg.—A youthful party of 15 Scotch boys from the hills and their parents, who were on their way to the city of Glasgow, have arrived in Winnipeg seeking jobs and farm for occupation on the prairie. With this party were four British and two Irish families who will settle on the prairie as soon as they can find a place to live. They are from the towns of Poles, Russians, Hungarians, Czechs-Slovaks, Rumanians and Swedes.

Cut-Off Date for Peel Wheat

Regina, Sask.—The directors of the Saskatchewan Wheat Pool have set July 15 as the cut-off date for the 1926-27 pool. It was officially announced. All street grain delivered and settled for by each club on or before July 15 will be included in the 1926-27 pool. Per cent grain all grain not loaded out by July 15 will be carried over into the 1927-28 pool.

Romney MacDonald Will Take Test

Ottawa.—James Romney MacDonald's testimony has been ordered by the court in the case of the former Labor Premier. He is still feeling the effects of the illness which confined him to a hospital during his recent visit to the United States and will go to Scotland in a rest.

British Discontinue Convoys

London.—The Admiralty has issued a communique stating that the British naval authorities in China were discontinuing the convoy of merchant ships as firing on steamers in the region has been discontinued. It was said that the British will be held in readiness, however, to deal with possible recurrence of firing.

Plans Ottawa-London Flight

Ottawa.—Captain E. J. James, 35-year-old Canadian flier, has announced definitely that he would fly from Ottawa on the morning of June 30 next in his proposed transatlantic flight to London to celebrate Canada's jubilee celebration.

## U.S. Pilot Lost Bearings

Went 145 Miles Off Route Between Montreal and Ottawa

Ottawa.—After being in air for five and a quarter hours, having lost his bearings and gone more than one hundred miles off his route, Captain R. G. Hoyt, piloting a United States Army goodwill plane, landed at Ottawa, B. C., after a long flight. He was flying from Montreal to Ottawa, B. C., and was lost for some time. He was found by a search party and was taken to a hospital for treatment.

The final landing in the capital at night was a remarkable feat. The pilot, who was found by a search party, was taken to a hospital for treatment. He was found by a search party and was taken to a hospital for treatment.

Maximov to Celebrate

Possibilities of Increased Immigration to Canada Will Be Discussed

New York City.—Immigration officials are looking for a new wave of immigration to Canada and the United States called from Montreal June 2, for a four weeks long celebration on their native soil. The officials are looking for a new wave of immigration to Canada and the United States called from Montreal June 2, for a four weeks long celebration on their native soil.

## NEW U.S. ENVOY IS PRESENTED TO LORD WILLINGDON

Official Dedication of Peace Span Takes Place in September

Ottawa.—Hon. William Phillips, first United States Minister to Canada, formally presented his letter of credence to Lord Willingdon, the Governor General, in Ottawa, B. C., on September 1st. Mr. Phillips was accompanied by his wife and two children.

"My government," said Mr. Phillips, "in the establishment of my mission, to strengthen the cordial relations which have existed between the people of Canada and the United States, confident that their association in the future will bring new benefits to both."

Lord Willingdon, Governor General, in reply, expressed his confidence in the friendship which has long existed between the people of Canada and the United States, confident that their association in the future will bring new benefits to both."

Mr. Phillips is well informed of the desires of the United States government to celebrate in the future, except the friendship which has long existed between the people of Canada and the United States, confident that their association in the future will bring new benefits to both."

"I am very sensible," said Mr. Phillips, "of the importance of the mission to which you have given expression with regard to the cordial and friendly relations which have existed between our two countries, and can assure you that both I and my government will give every assistance in our power to promote the progress and prosperity of the United States."

Mr. Phillips is well informed of the desires of the United States government to celebrate in the future, except the friendship which has long existed between the people of Canada and the United States, confident that their association in the future will bring new benefits to both."

## FOREIGN POWERS SENDING TROOPS TOWARDS PEKING

Peking.—The movement of the Nationalists on Peking, ancient capital of China, and the strategic retreat of Chang Tso-Lin, Manchurian ruler, under whose regime foreigners in the Peking district have been protected, caused an ominous rumbling in the Chinese situation. The powers are expected to concentrate allied forces on protective positions in the immediate area.

Japan has landed 2,000 troops at Tientsin, ready to advance to Tientsin, B. C., capital of Shantung province, along the Shantung Railway, which Japan introduced in China at the Washington conference. This advance is intended, will be made only if Japanese interests require protection. There are also indications from Tientsin that 2,000 additional troops will be sent to Peking and Tientsin if needed.

Great Britain is ready to dispatch at least a battalion to Tientsin from Shanghai, and it is understood the British regiment has been alerted. The United States is moving by ship 2,000 troops from Shanghai and 5,000 more from Tientsin to meet any emergency that may arise.

Great Britain is ready to dispatch at least a battalion to Tientsin from Shanghai, and it is understood the British regiment has been alerted. The United States is moving by ship 2,000 troops from Shanghai and 5,000 more from Tientsin to meet any emergency that may arise.

## International Bridge Opened For Traffic

Formal Dedication of Peace Span Takes Place in September

Buffalo, N.Y.—The new international peace bridge spanning the Niagara River between Buffalo and Toronto, Ont., was opened to traffic June 1 with single emergency lanes for the two countries which it connects.

Promptly at the time set for the opening, automobiles, containing officials of the United States and Canada, and public officials led by Mayor Frank B. Rowland, left the United States end of the structure for the Canadian side. There, they were met by the mayor of Buffalo and the mayor of Toronto, and the bridge was opened to traffic.

The bridge is a long, low structure, built on Canadian pillars located by the Rev. Louis Douglas, of Port Erie, and returned to the American side. It is a long, low structure, built on Canadian pillars located by the Rev. Louis Douglas, of Port Erie, and returned to the American side.

## Canadian Minister

Welcomed in Kentucky

Addressed English-Speaking Union on "Exploits of Neighbourhood"

London, Ky.—The French Jack and the Stars and Stripes happily interlarded over the heads of 150 English-speaking Union members at the English-speaking Union, while Hon. Vincent Massey, Canadian minister to the United States, made an "Exploits of Neighbourhood" speech.

"I am glad," English-speaking folk are bawled that we may be good patriots and good neighbors at the same time," he said. He praised the English-speaking Union for its work in promoting citizenship and good feeling between people and paid a tribute to the Kentucky branch.

John R. W. Bingham, honorary president of the Kentucky organization, presided at the luncheon. He characterized England as the "most important entity in the world."

"By England," he said, "I do not mean a small island off the coast of Europe. I refer to the state of mind of the English-speaking people throughout the world, who have brought to the world a condition of religious, political and social freedom without being that supporting spirit of the world, which is the characteristic of the race."

## Getting Branch Line Work Under Way

C.N.R. Anxious to Have Lines Completed Says Vice President

Winnipeg.—The vice president of the Canadian National Railway, who arrived in the city from Montreal.

"As quickly as the contracts can be let, the work is getting under way," he said.

The system was anxious to get the lines completed and serving the public as soon as possible, he said, and a good deal of the work would be done this year. Mr. Thompson was accompanied by an engineering officer, who arrived in the city from Montreal.

The vice president was seen on one of his periodical trips for conference with western region officials.

## PERMIT RUSSIA TO CONTINUE TO TRADE IN BRITAIN

London.—Sir William Johnston, British Home Secretary, in a statement to the House of Commons regarding the conditions under which Russia will be permitted to trade in Britain, said that the British government had no desire to place any difficulties in the way of trade between Russia and Great Britain.

"The British government has no desire to place any difficulties in the way of trade between Russia and Great Britain," he said. "The British government has no desire to place any difficulties in the way of trade between Russia and Great Britain."

"The British government has no desire to place any difficulties in the way of trade between Russia and Great Britain," he said. "The British government has no desire to place any difficulties in the way of trade between Russia and Great Britain."

Pontiac

## Spring Cleaning

The DON Dry Cleaners can brighten up and renew the appearance on many a garment that is too good to lay aside. Brighten up your spring wardrobe. Phone or drop a card to the Don driver. No delivery charges to pay.

The Don Cleaning & Dyeing Co.  
WATCH FOR THE DON CAR

## EXPERIENCE

Long experience has proved to farmers that they can rely on this farmers' company for service and protection in marketing their grain.

Deliver your Grain to

**UNITED GRAIN GROWERS LTD**

Elevator at CHAMPION

Leave your provisional order for U. G. G. Binder  
Twine at the Elevator.

## Hail Insurance

For this season I represent a number of the oldest and best companies in the Hail Insurance field. These include

**Royal Exchange  
Westchester  
Hartford, etc.**

Don't fail to see me before placing your insurance.

**A. W. JOPLING**

A "manless" tractor, controlled by an electric device, successfully plowed a 20-acre field recently on the College of Agriculture farm of the University of Nebraska. The electric control stops the machine should it leave the furrow and when the work is completed.

Ole Running brought in a sample of wheat from his farm which requires the full length of a two-foot rule to measure it. It looks more like some hot house product than any natural growth.

All roads will lead to Champion on July 1st.

## P.T.A. Offers Prizes For Recitations

The P.T.A. are offering the following prizes for the best patriotic recitations:

Three prizes of \$2.00 each.  
Three prizes of \$1.00 each.  
The school grades are divided into three groups, viz.: Grades 1 to 4, Grades 5 to 7 and Grade 8, up, all inclusive. Only one recitation from each grade to be entered. Entries to be in by June 15th, same to be made to Mrs. W. C. Hoskins or to the teacher.

The contest is open to all the schools in the district and the recitations will be a part of the program on July 1st.

According to Calgary Power officials here on Wednesday, their line will be here early in August.

The dance in Kramer's Garage, which was to have been held on Monday evening last has been arranged for Friday evening, June 10th.

W. Adams, who for a long period has been a resident of California, returned to Champion last week, and will remain here for the present, at least.

Look-One large Galvanized Pail containing the following: Proctor and Gamble Soaps: 1 package Chipso, large size; 2 White Naphtha, 3 Gold Soap, 2 guest Ivory (medium), regular value \$1.35, all for 98c.—McCallough Bros.

Mesdames Robbie, McMan and Ross, of Vulcan, Mesdames Roberts, Cooper and Gow, of Barons, and Mrs. Wilson of Carmanagay, visited the meeting of the O.E.S. on Monday evening. Mrs. Dawson, of Edmonton was also present and favored the Star with two excellent solos, accompanied by Mrs. A. S. Roberts.

Beginning our eighth year of publication, would it be amiss to draw the attention of our readers to the matter of subscriptions. A very large portion of these are in arrears and any idea of improvement to the plant and paper is naturally curtailed in consequence. As we have pointed out before one person in arrears would be far from a serious matter. It is a general disposition to forget this obligation that makes it serious. The amount involved is so small that nothing further than this suggestion should be needed. We are trying to live like the rest of you—that is all.

## United Church of Canada

SUNDAY SERVICES

11 a.m. Sunday School.

7:30 Evening Worship.

3 p.m. Service at Blason every Sunday except the last of each month.
